Sustainable manufacturing: 100% Organic Cotton

We manufacture our products with minimal negative impact on the environment.

Starting with the sourcing of raw materials, we ensure full **traceability of all fibres**, choosing **100% organic cotton** in the Earth Positive® range. Our garments are made from organic cotton, hand-picked and grown without the use of harmful chemicals, ensuring healthy soil and farmer well-being.

We are an active contributor to the International Working Group on the Global Organic Textile Standard (GOTS). We are certified under the **Global Organic Textile Standard**, Organic Content Standard and the Global Recycled Standard.

Yarns and Fabric

The quality of our yarns and fabrics is the foundation to delivering the **highest quality garments**.

We control the spinning process of almost seventy percent of all the yarns used in production as part of its vertically-integrated manufacturing structure, with the remainder being carefully sourced externally. All the yarns used by our company are fully combed and ring spun.

All the fabrics are knitted at our in-house facilities, and dyed using low-water and controlled waste discharge processes, certified to **OekoTex 100 Class I standard** and conforming to REACH.

Organic certified fabrics are dyed in our **zero-discharge dyehouse**, where all the water is recycled in a **closed-loop system**.

Printing suitability

The **high quality surface finish**, our garments perform particularly well with digital direct-to-garment or DTG printing.

All our products are designed and **manufactured specifically for garment decorating**, and, with the exception of un-dyed bags, are suitable for all screen-printing techniques and all ink types, including discharge printing.

We strongly urge the use of ink types and printing processes with a low environmental impact, without phthalates or aromatic solvents, non-PVC, water-based, compliant with environmental and organic standards.

Climate neutral

Our factory is powered only by **clean renewable energy**, using wind turbines and solar panels, and our water is treated and reused with ZERO discharge, keeping local systems free from harmful chemicals.

Our carbon footprint is around 90% less than that of standard clothing producers.

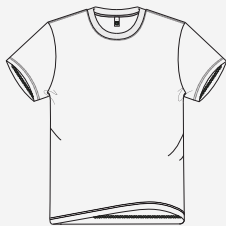

In 2021 Earth Positive® achieved **DETOX TO ZERO** status. This means there is **zero discharge of hazardous chemicals (ZDHC)** in our fabrics processing plant. There is no discharge of liquid waste in the dye house as we operate a **closed-loop system** where all wastewater is purified and returned back to be used again.

EP01

Earth Positive® Jersey T-shirt

There are T-shirts, and then there's the EP01. **A staple since 2007**, this is the style that put Earth Positive® on the map - and kept us there. Designed with a classic, unisex fit that works effortlessly on everyone, the EP01 isn't chasing trends - it's what other T-shirts chase.

What sets it apart? The technology behind the fabric. Unlike many tees that rely on enzyme washes to fake softness (which disappear after a few washes), the EP01's feel and performance come from the inside out through compact-spun yarn, a process we've perfected and others can't replicate. It's why the EP01 keeps its shape, feel, and integrity wash after wash. Quality doesn't wash out.

For printers and decorators, it's become a go-to blank. Easy to work with, reliable, and

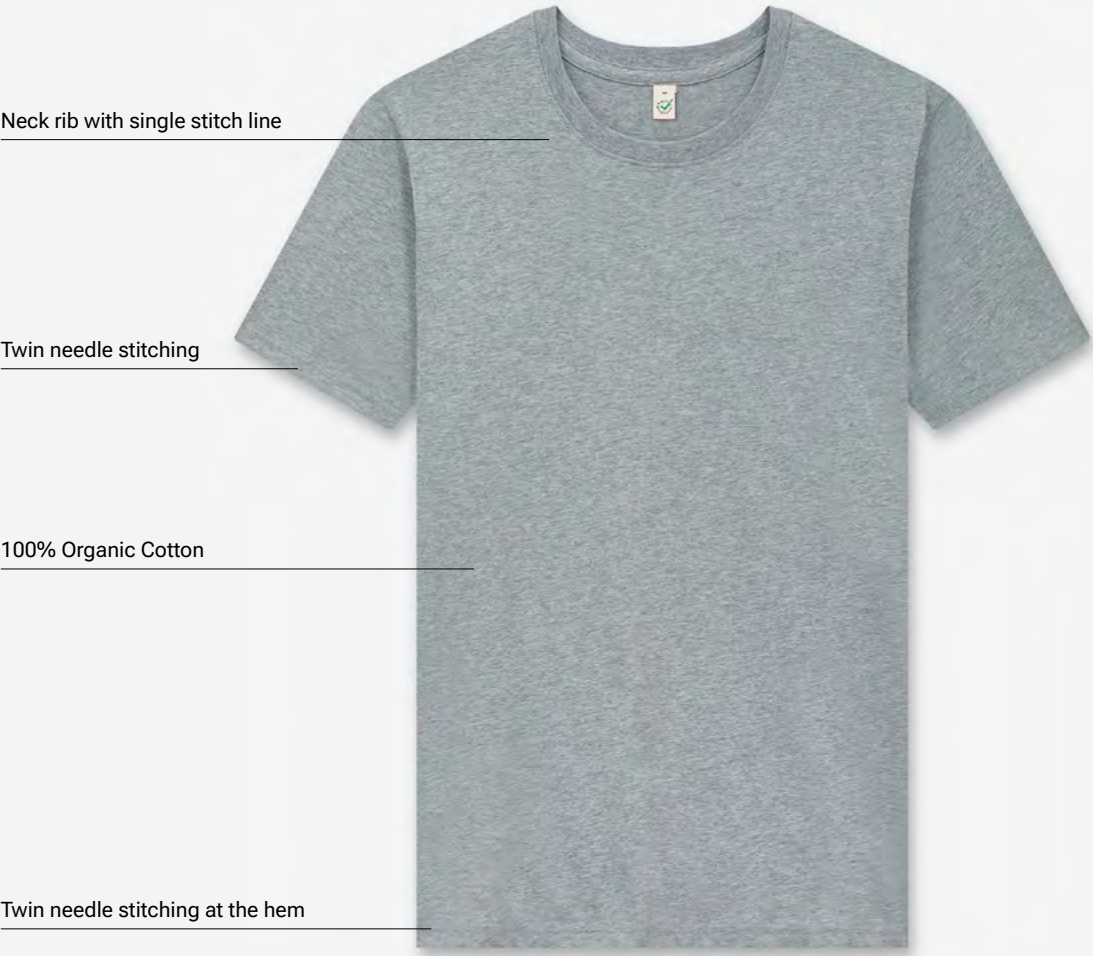

consistent. That's why it's a favourite across bands, brands, and businesses that value durability and print performance.

On the sustainability front, EP01 leads with facts, not fluff. Made from **100% organic cotton**, with 90% CO2 reduction per T-shirt (around 6kg CO2 saved per each T-shirt). No polyester. No microplastics. No offsets. Just the real thing, done right.

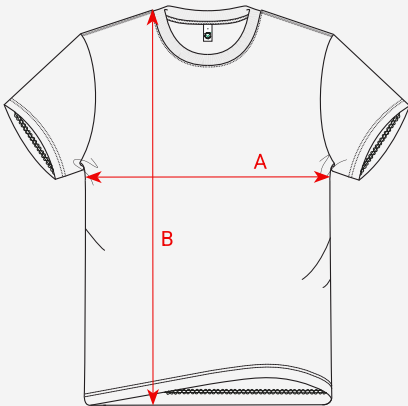

EP01

Stone Washed

Our premium Stone Washed garments offer a vintage feel and softened fit. They are rich in character and perfect for printing.

Our stone washed process is certified under Global Organic Textile Standard (GOTS).

EP01L

Earth Positive® Long Sleeve T-shirt

The EP01L is the long sleeve version of our iconic EP01, the T-shirt that built the Earth Positive® name. Made from lightweight 155 g/m2 organic cotton jersey, this unisex style offers the same **trusted fit, soft feel, and clean silhouette**, now with full-length sleeves for added versatility.

It's everything that makes the EP01 a best seller: breathable, durable, and designed to last wash after wash. We don't rely on chemical softeners; instead, we use compact-spun yarn technology to ensure the fabric feels good from the inside out.

For printers and brands, the EP01L is a dream to work with. Lightweight but stable, smooth but strong, it delivers consistent print results every time. Ideal for layering pieces, seasonal collections, or long-sleeve band merch.

Made from **100% organic cotton**, with no polyester, no microplastics, and no greenwashing. Just the same high-impact, low-impact promise you expect from Earth Positive®. The EP01L adds reach to your range sustainably.

EP01S

Earth Positive® Sleeveless T-shirt

The EP01S takes everything that made the EP01 iconic and strips it back - literally. A sleeveless adaptation of our most loved T-shirt, it's built for **comfort, breathability, and effortless style**. Lightweight at 155 g/m2, it's crafted from our signature **100% organic cotton jersey** soft to the touch, but made to last.

Designed with a unisex fit, the EP01S features a ribbed neckline with single-needle stitching, cleanly finished armholes with self-fabric taping for reinforcement, and a twin needle stitched hem for long-lasting structure. It's a go-to option for warmer days, active settings, or simply a more relaxed look.

Sustainability is built in, not tacked on. Like all Earth Positive® products, the EP01S is made with **no polyester, no microplastics, and no greenwashing**.

Whether your customer is looking for premium blanks to print on or a low-impact essential to wear as-is, this piece delivers.

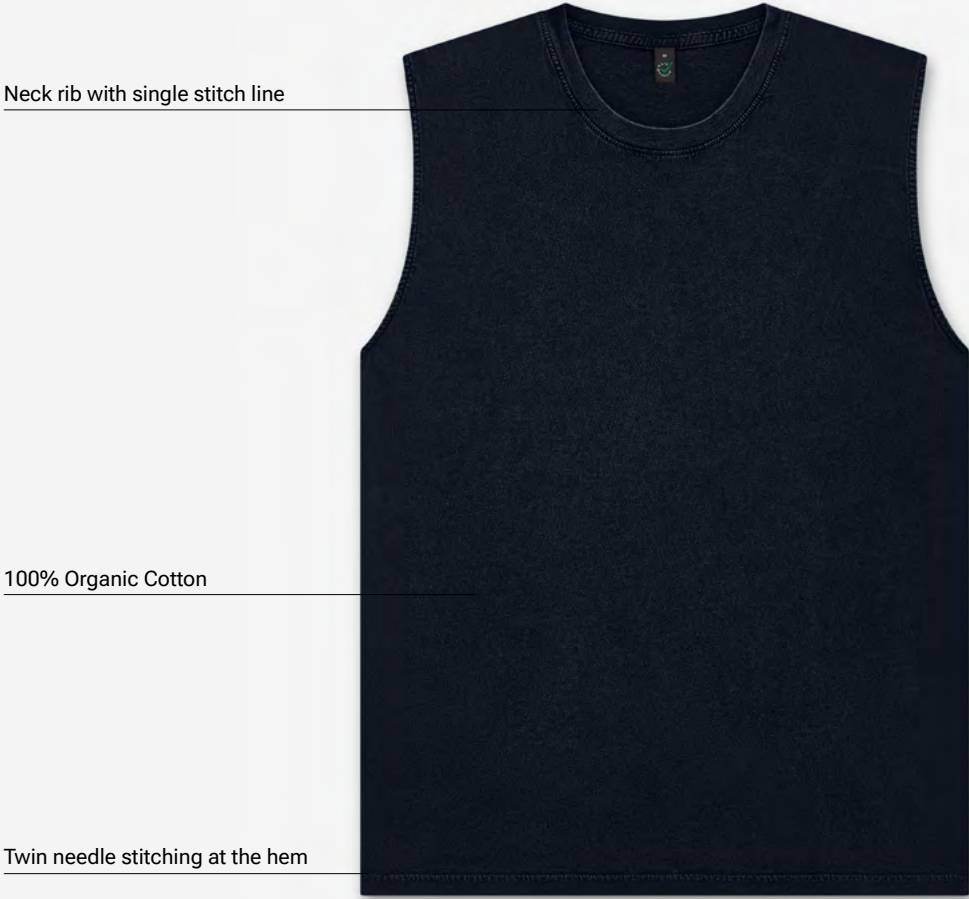

Available in White, Black, and Stone Washed Black classic shades that work across markets and moods.

EP002

Earth Positive® Women's Premium Jersey T-shirt

EP002 is the updated women's version of our classic EP02 Earth Positive® T-shirt - now in a premium 185 g/m2 organic cotton jersey for a softer hand feel and a more substantial look.

This style has been redesigned for a **modern, boxy silhouette** that flatters and fits comfortably. Slightly longer sleeves and a raised neckline add to the elevated finish, making it a refined essential in any sustainable wardrobe.

Made from 100% organic cotton, **EP002 offers all the benefits of Earth Positive® no polyester, no microplastics, and a significant CO2 reduction.** The premium fabric also delivers an excellent print surface, making it ideal for retail, merchandise, and fashion-led collections.

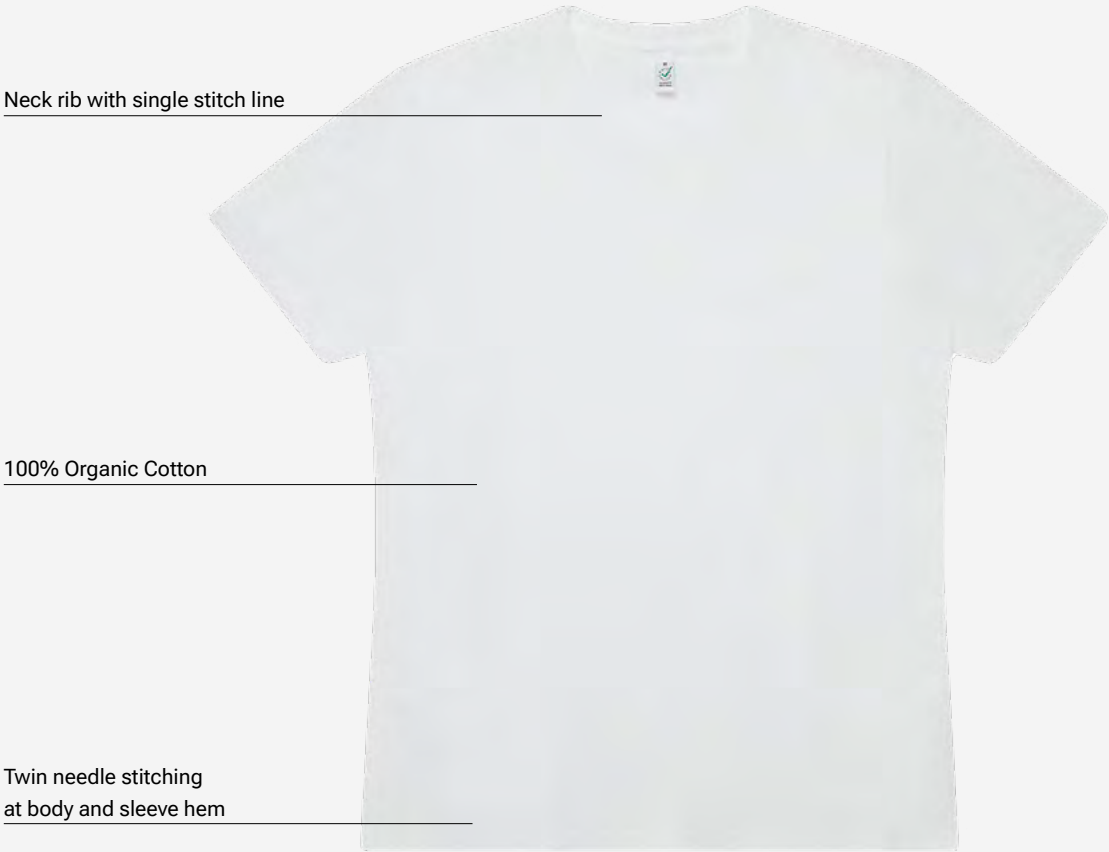

Finished with our Earth Positive® 'green tick' label at the centre back, EP002 communicates authentic quality and environmental responsibility at a glance.

EP026

Earth Positive® Women's Premium Boxy T-shirt

The EP026 is a modern, boxy-fit women's T-shirt crafted from 100% GOTS-certified organic cotton in a premium 185 g/m² jersey. With a **cropped silhouette and structured shape**, it's a fresh take on a classic, ideal for retail collections that value both style and sustainability.

Designed with a wider body and shorter length, slightly extended sleeves, and a higher neckline, the EP026 delivers a **contemporary fit with everyday wearability**. It offers a clean, elevated surface for decoration, making it a favourite among brands focused on quality and detail.

Finished with the Earth Positive® 'green tick' label at the back neck, this piece speaks clearly to conscious production and ethical sourcing. Bold, boxy, and better for the planet.

EP38

Earth Positive® Heavy Jersey T-shirt

When premium weight meets conscious design, you get the EP38 Earth Positive®'s heaviest T-shirt, made for those who want substance without compromise.

Crafted from dense 220 g/m² organic cotton jersey, this tee offers a **structured silhouette** and a rich, substantial feel that stands out both in hand and on the body.

The **heavyweight** fabric provides a clean, stable canvas for decoration making it a go-to choice for printers and brands that want high-impact results. Whether worn plain or printed, the EP38 holds its shape and integrity wash after wash, while delivering comfort and durability in equal measure.

EP220

Earth Positive® Women's Heavy Boxy T-shirt

The EP220 is the women's counterpart to our new EP50, offering the same premium heavyweight feel with a shape refined for a feminine fit. Made from 100% organic cotton (220 g/m²), it delivers comfort, structure, and a distinctly modern silhouette.

A **slightly shorter front length** and a **subtly deeper neckline** create a flattering, relaxed look without compromising on coverage. Designed with a **wide neck rib**, **durable twin-needle stitching**, and **herringbone back neck tape**, it balances everyday wearability with long-lasting quality.

Available in classic Black and White and finished with Earth Positive® branded labels, the EP220

gives effortless style a responsible upgrade - better for people, better for the planet.

EP185

Earth Positive® Premium Jersey T-shirt

EP185 is the refined sibling of our iconic EP01, the same classic, unisex fit that flatters everyone, but made in a **premium 185 g/m²** Organic Cotton that elevates the everyday T-shirt.

Made from 100% organic cotton, the EP185 contains no polyester and no microplastics. It's not just a better T-shirt, it's the most sustainable choice you can make, with a carbon footprint that's up to 90% lower than conventional alternatives.

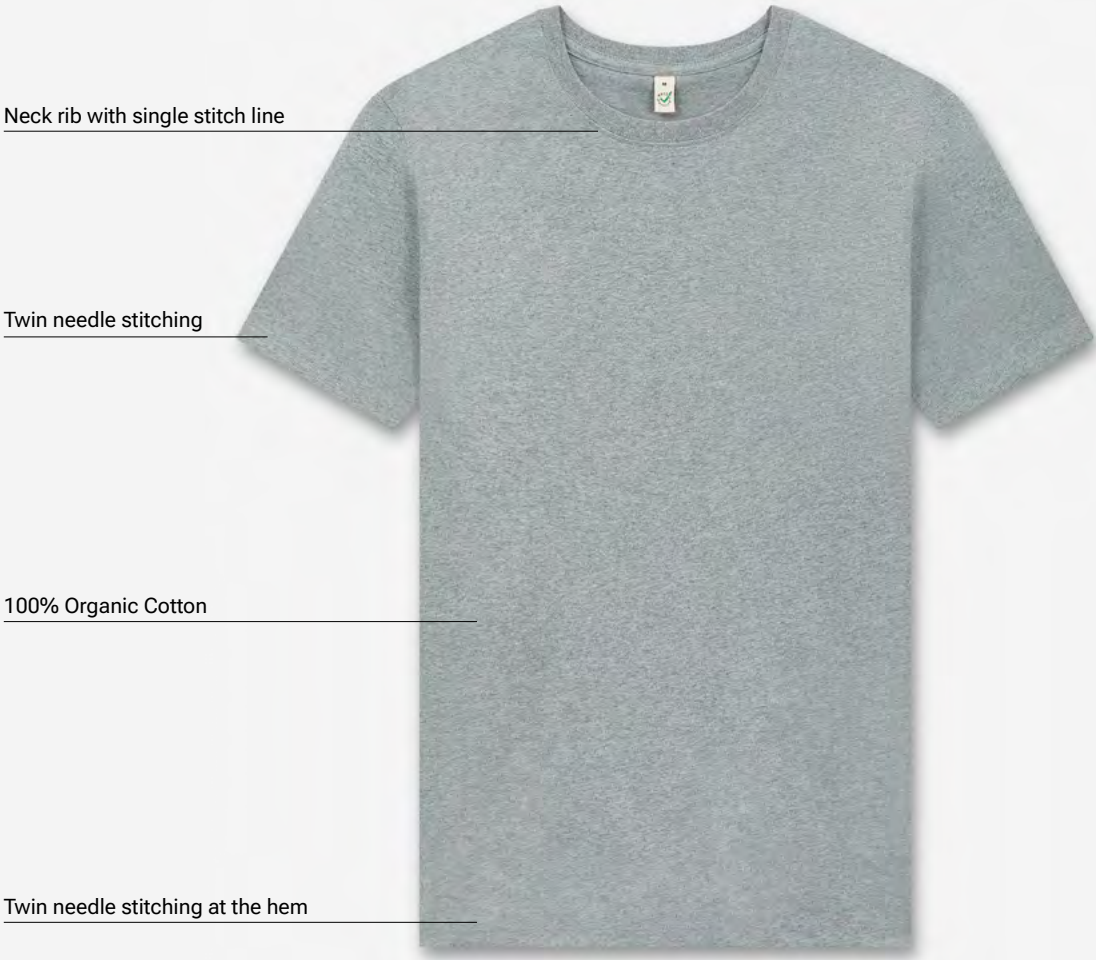

This isn't softness that washes out. The **premium finish** comes from the fibre itself, thanks to the advanced spinning technology we've developed over decades. Unlike other tees that rely on enzyme washes to fake a soft handfeel, the EP185 feels good from the start and stays that way.

For brands, bands, and printers, it's a go-to blank: high-quality, consistent, and easy to decorate. But what really sets it apart is the balance. It's a premium T-shirt at the best possible price and the most **ethical, traceable, and sustainable** option on the market.

EP185L

Earth Positive® Premium Long Sleeved T-shirt

Introducing the EP185L the long-sleeved evolution of our best-selling premium tee, built for cooler days and conscious collections. Made from 185 g/m² certified organic cotton, this heavyweight jersey fabric delivers a **structured feel with a smooth surface**, perfect for clean, high-impact prints.

Designed with the same flattering unisex fit as the EP185, the EP185L brings extra versatility to your range while maintaining all the key features: **premium weight, superior printability, and complete sustainability**. No polyester. No blends. Just 100% organic cotton from seed to stitch.

The distinctive Earth Positive® back neck tab adds value and visibility. It's more than a label it's your built-in brand story, communicating the product's

sustainability credentials clearly and confidently to customers and end users alike.

Ideal for music merch, streetwear drops, and elevated brand basics, the EP185L is premium where it matters most in quality, performance, and environmental impact.

EP40

Earth Positive® Piqué Polo Shirt

A classic silhouette, elevated with substance and sustainability. The EP40 is made from 240 g/m² 100% organic cotton piqué, offering a textured, breathable fabric with timeless appeal.

Designed with a two-button placket, coordinated collar and sleeve detailing, and side vents at the hem for comfort and movement. A spare button is included inside for practicality.

Finished with the Earth Positive® 'green tick' logo at the centre back, the EP40 combines trusted style with a certified low-impact supply chain ideal for branded merchandise, uniforms, and retail collections seeking **long-term quality and ethical value.**

EP301

Earth Positive® Pullover Hoodie

There are hoodies, and then there's the EP301. With a thoughtfully designed silhouette, modern proportions and a luxuriously soft 300 g/m² fleece, the EP301 is made entirely from **100% organic cotton**. No polyester. No microplastics.

What makes it different? It's the process. Unlike other hoodies that rely on heavy surface treatments to feel soft, the EP301 is engineered from the yarn up. The technology behind the fabric gives it lasting softness and structure without relying on finishes that fade after the first few wears. The result is a **hoodie that feels as good as it looks for longer**.

Available in solid and **Stone Washed** colours, the EP301 speaks directly to a new generation of environmentally conscious wearers, Gen-Z and Millennials who want substance behind the style.

For printers and brands, it's a dream to decorate: smooth, stable, and always reliable. And for the planet? **Every hoodie saves an average of 18kg of CO² compared to conventional alternatives.**

EP302

Earth Positive® Sweatshirt

A sweatshirt is a sweatshirt - until it's the EP302. **Built for comfort, designed for print, and made to last**, this is our premium crewneck reinvented for a new era of sustainable apparel.

Crafted from **100% organic cotton fleece** and weighing in at 300 g/m², the EP302 combines substance with softness. There's no polyester here - just premium fibre, spun and finished using superior technology that makes it incredibly smooth, stable, and perfect for print. No pilling, no harsh washes, just long-lasting quality baked into every thread.

What makes the EP302 different is what you don't see. No microplastics. No offsets. No shortcuts. Just **traceable, transparent, low-impact production**, with a drastically lower carbon footprint than conventional sweatshirts. It's the cleaner,

smarter alternative that doesn't compromise on style or performance.

This is the blank trusted by brands, creatives, and music merch legends alike. Soft to wear, strong to last, and easy to print. **It's where comfort meets credibility - and it's what sustainable fashion should feel like.**

EP303

Earth Positive® Full Zip Hoodie

The EP303 is Earth Positive®'s elevated take on the essential zip hoodie redesigned for comfort, made for print, and built to last. Crafted from premium **100% organic cotton fleece**, it delivers softness without synthetics and performance without compromise.

With its **clean silhouette and modern fit**, the EP303 blends everyday comfort with street-ready style. The smooth, natural surface is perfect for decoration, offering consistent results for printers and designers who demand quality and reliability.

The EP303 is part of a new generation of merch: one that speaks to conscious Gen-Z and Millennial audiences who want their apparel to reflect their values.

Contemporary, durable, and fully sustainable, this is more than just a zip hoodie - it's your go-to garment for eco-responsible collections that don't cut corners on style or substance.

EP304

Earth Positive® Half Zip Hoodie

Meet the EP304 our most forward thinking piece yet. With its **bold new cut and elevated details**, this is **merch reimaged** for a generation that values creativity, comfort, and consciousness.

Available in classic black and our exclusive sueded black, the EP304 is made from the softest fabric we've ever produced. That **luxurious feel**? It's not a surface treatment it comes from within. The result of advanced spinning and finishing technology no one else in the industry is doing. This isn't fake softness that fades, it's built into the DNA of the garment.

And despite its plush surface, the EP304 is perfect for print. That's the magic of the sueded finish: **premium hand-feel without compromising on the print clarity**, making it ideal for brands, musicians,

and merch-makers **who want to stand out** without sacrificing their sustainability values.

Crafted from **100% organic cotton** and completely free of polyester or microplastics, the EP304 is low-impact and high-performance. It's fashion-forward, ethically made, and ready to disrupt everything you thought you knew about merch.

EP306

Earth Positive® Bomber Jacket Hoodie

The EP306 reimagines a streetwear staple through the Earth Positive® lens. This elevated zip hoodie features a classic bomber-inspired silhouette roomy through the chest, cinched at the waist and cuffs offering a bold yet wearable shape with a modern edge.

Crafted from 300 g/m² brushed-back fleece, the EP306 combines softness and structure in equal measure. A high neck hood, ribbed hem and cuffs, and side-entry pockets with rib detailing complete the look, while the YKK centre front zipper ensures smooth, reliable fastening.

Branded with the signature Earth Positive® woven label at the back neck, this hoodie stands as a statement in both style and sustainability made

from 100% organic cotton with zero polyester or plastic blends.

EP540

Earth Positive® Super Heavy Hoodie

The EP540 is our heaviest hoodie yet, built for those who want unmatched quality, weight, and warmth. Crafted from 100% organic cotton and weighing in at a substantial 540 g/m², this super heavy fleece hoodie delivers maximum comfort with zero compromise.

Designed with a clean, minimal silhouette, the EP540 features a **double-layer hood, kangaroo pocket, ribbed cuffs and hem, and drawstrings for a contemporary finish.** The high-density fabric creates an exceptional print surface, making it ideal for premium retail, streetwear, or merch applications.

Finished with the Earth Positive® woven label at the back neck, the EP540 combines heavyweight performance with the Earth Positive® hallmark

commitment to sustainability, quality, and low-impact production.

A statement hoodie that looks and feels as strong as its values.

EP552

Earth Positive® Storm Flap Hoodie

The EP552 pushes hoodie design into new territory merging street-ready style with purposeful construction. Made exclusively in Sueded Black, this standout piece features a **unique storm-flap panel across the chest**, adding both dimension and protection from the elements.

Crafted from premium brushed organic cotton fleece, the fabric delivers a smooth, sueded finish with a soft, elevated hand-feel. **The roomy hood, front kangaroo pocket, and ribbed cuffs and hem** offer that everyday comfort you expect - while the distinctive layered look makes it anything but ordinary.

As part of the Earth Positive® collection, the EP552 is produced using 100% organic cotton and renewable energy, ensuring sustainability is built into every stitch.

Earth Positive® Sweat Shorts

Where comfort meets premium sustainability. The EP341 Sweat Shorts combine a relaxed, easy fit with a clean, structured design made from ultra-soft 300 g/m² sueded fleece, brushed on the inside for **all-day wearability**.

Body fabric free from **100% organic cotton**, these shorts are entirely free from polyester and microplastics, staying true to Earth Positive's uncompromising environmental standards.

Designed with a ribbed elastic waistband, adjustable drawstring with eyelets, and tipped cord ends, the fit is practical and polished.

Finished with side panels, a subtle back yoke detail, and clean hems, the EP341 delivers premium

feel and structure. A branded woven label at the waistline adds a final touch of authenticity.

Made to complement the broader Earth Positive® range ideal for sustainable fashion, merchandise, and premium printwear.

A new silhouette in the Earth Positive® collection, the EP343 Skirt brings elevated softness and versatility to sustainable outfitting. Crafted from our luxurious 300 g/m² sueded fleece, it combines **premium comfort with a contemporary, streamlined shape.**

This style is designed with a ribbed elastic waistband and bullet-tip drawcords, giving it a clean, minimal finish. Side panels offer subtle shaping, maintaining a flattering fit without added complexity. As with all Earth Positive® styles, it's made from **100% organic cotton** completely free from polyester or synthetics.

Whether styled casually or as part of a coordinated set, the EP343 adds a fresh, wearable layer to any wardrobe.

Available in **10 rich sueded colours**, designed to match across the Earth Positive range. Ideal for sustainable collections in fashion, merch, and premium printwear.

EP344

Earth Positive® Raw Hem Shorts

The EP344 takes the core features of our EP341 sweat shorts and adds a subtle, stylish twist: **raw-edge hems** for a relaxed, unstructured look. It's a minimal adjustment that makes a big visual impact ideal for brands seeking a more laid-back, **contemporary style**.

Made from our signature 300 g/m² sueded fleece (**100% organic cotton**, brushed back), the EP344 offers the same premium softness and eco-conscious credentials as the rest of the sueded range with no polyester or microplastics.

Details include an elasticated ribbed waistband, adjustable drawstring with bullet-tip cord ends, side panels, and subtle back yoke shaping for improved fit and silhouette.

Raw, real, and ready to wear the EP344 expands Earth Positive® outfitting with a clean, modern edge.

EPJ01

Earth Positive® Children's T-shirt

EPJ01 is the children's version of our iconic EP01 the T-shirt that defined Earth Positive®. Made with the same **100% organic cotton** fabric and lightweight 155 g/m² jersey, it delivers all the quality, comfort, and sustainability of the original, perfectly scaled for younger wearers.

This unisex style features a classic fit that's **easy to wear and easy to print on**, making it ideal for schools, events, family merch, or eco-conscious childrenswear brands. Like the adult EP01, we use compact-spun yarn, not enzyme washes to ensure long-lasting softness and shape retention, even after repeated washes.

With fabric that has no polyester, no microplastics, and no compromises, EPJ01 is a go-to for those

who want to offer garments that are **kind to skin and to the planet**.

Whether for custom designs or everyday wear, it's a **small T-shirt with a big message**.

EP81

Earth Positive® Cross Body Bag

The **EP81 Cross Body Bag** combines practicality and style with sustainability at its core. Crafted from **100% organic cotton** using a durable 215 g/m² twill weave and compact-spun yarn, this bag offers strength and a refined texture that stands up to everyday use.

Designed for convenience and comfort, it features a **sleek cross-body silhouette perfect for on-the-go lifestyles**. Like all Earth Positive® bags, it carries the distinctive EP flag label on the side seam, a mark of authentic ethical production and low carbon impact.

A **versatile, fashion-forward accessory** that meets your customers’ demands for quality, eco-conscious materials, and responsible manufacturing.

EP82

Earth Positive® Jumbo Tote Bag

The **EP82 Jumbo Tote Bag** is the ultimate carry-all oversized, durable, and designed for heavy use. Made from **100% organic cotton canvas** (290 g/ m²), it offers a sturdy structure and a large capacity, perfect for everything from daily errands to event giveaways or retail.

The long handles make it easy to wear over the shoulder, while the wide gusseted base provides extra space and support for bulkier items. Like all Earth Positive® bags, it carries the EP side flag, a subtle marker of **certified organic production and low-carbon manufacturing**.

A **high-impact, high-capacity tote** built for sustainable branding and serious utility.

A young man and woman are posing for a promotional photo. The man, on the left, has curly brown hair and is wearing a white t-shirt with his arms crossed. The woman, on the right, has long dark braids and is also wearing a white t-shirt, with her hand resting on the man's shoulder. They are both looking directly at the camera against a plain white background.
